Discussed the last baronial council meeting and topics from it. (Baronial need for new eric creation materials, upcoming Crown Tourney, need for Potrero war autocrats)

Reports from Exchequer (there is money), report from Webminister (please send stuff, ANYTHING, including instructables to share), Herald was apprised of the names/devices within the canton group that had been approved/passed, Seneschal emphasized the need to get a site confirmed for upcoming anniversary event in June (and gave updates on getting the date adjusted).
